

# TRAX

## Multi-Use 2-Cycle Engine Oil

### Features & Benefits

- Economical
- Good low temperature fluidity
- Good film strength at high temperature
- Will not stain pistons
- Provides excellent cleanliness
- Low ash formulation
- Distinct blue identifying color

### Specifications

Meets requirements of:
JASO FB, FC, FD
ISO-L-EGB, EGC, EGD
API TC

### Sizes & Order Codes

TRAX Multi-Use
946 ml/1 US Qt F0021015

### Typical Results

Test Method	TRAX Multi-Use
<b>VISCOSITY (D445)</b> cSt @ 40 °C cSt @ 100 °C	53.9 8.4
<b>VISCOSITY INDEX (D2270)</b>	130
<b>POUR POINT (°C) (D97)</b>	-40
<b>FLASH POINT (°C) (D93)</b>	99
<b>DENSITY @ 15°C (ASTM D4052) kg/L</b>	0.87

Irving TRAX Multi-Use was developed for the professional user where high performance and equipment reliability is a must.

Irving TRAX Multi-Use was formulated to take on the demanding requirements of high-performance racing and air-cooled 2-stroke gasoline engines used in power equipment and recreational vehicles. The unique concentrations of detergent and anti-wear additives create a low ash level to help prevent crankcase, piston, and ring groove deposits that lead to poor performance. Enhanced fuel oxidation stability was inherent in this formulation to reduce varnish and gumming.

Irving TRAX Multi-Use is a high-performance lubricant for enhanced performance over straight conventional products.

Irving TRAX Multi-Use is recommended for all 2-stroke lubrication systems, whether pre-mix or oil injected, except water-cooled outboards, where ash free 2-stroke oils are required.

Irving TRAX Multi-Use is suitable for chain saws, string trimmers, lawnmowers, snow blowers, motorcycles, ATVs and any other air-cooled 2 cycle gasoline engine. It is also suitable for snowmobile 2-stroke engines, whether air or liquid-cooled, where the manufacturer recommends a low-ash, JASO FD, ISO-L-EGD, or API TC oil. This oil meets the demanding requirements of Bombardier snowmobiles.
